

The Boys & Girls Club of Kenosha Annual Report

2023

Boys & Girls Club of Kenosha is a youth guidance organization dedicated to promoting health, social, educational, vocational, cultural, character and leadership development.

Message From the CEO

Dear Club Friends,

This past year we completed 30 years of serving Kenosha youth and their families with an impact of over 100,000 youth. While we are so honored to have been a part of so many young lives, we are also honored to know that our story is a story about what's possible when our community comes together under a common goal of ensuring Kenosha is a great place for all kids to grow and thrive.

When we first began, we did so with a straightforward aspiration – to create a place where Kenosha youth could come and feel safe, connect with people who care, and gain access to life-changing opportunities. In many ways, our aspiration today is the same. However, we understand even better how essential our work is and will continue to be for our community. As we look ahead, we know that every year, every month, and every day, there will be another way the Boys & Girls Club of Kenosha must show up for our youth.

We are thrilled to present you with the Boys & Girls Club of Kenosha's Annual Report. This report reveals tremendous progress, but we continue to lean on you for your guidance and support as we strive to meet the needs so many continue to face in our community each day. Your support has played a pivotal role in enabling us to offer programs that foster academic success, promote healthy lifestyles, and develop leadership skills among the youth we serve. By investing in their potential, we are empowering the next generation of innovators, leaders, and community members who will shape the future of Kenosha and beyond.

We hope you'll continue to be our partner. We also hope you know how much your support has meant to us and our youth. We are so grateful to you for your trust and belief in our purpose – to help Kenosha youth thrive and reach their full potential.

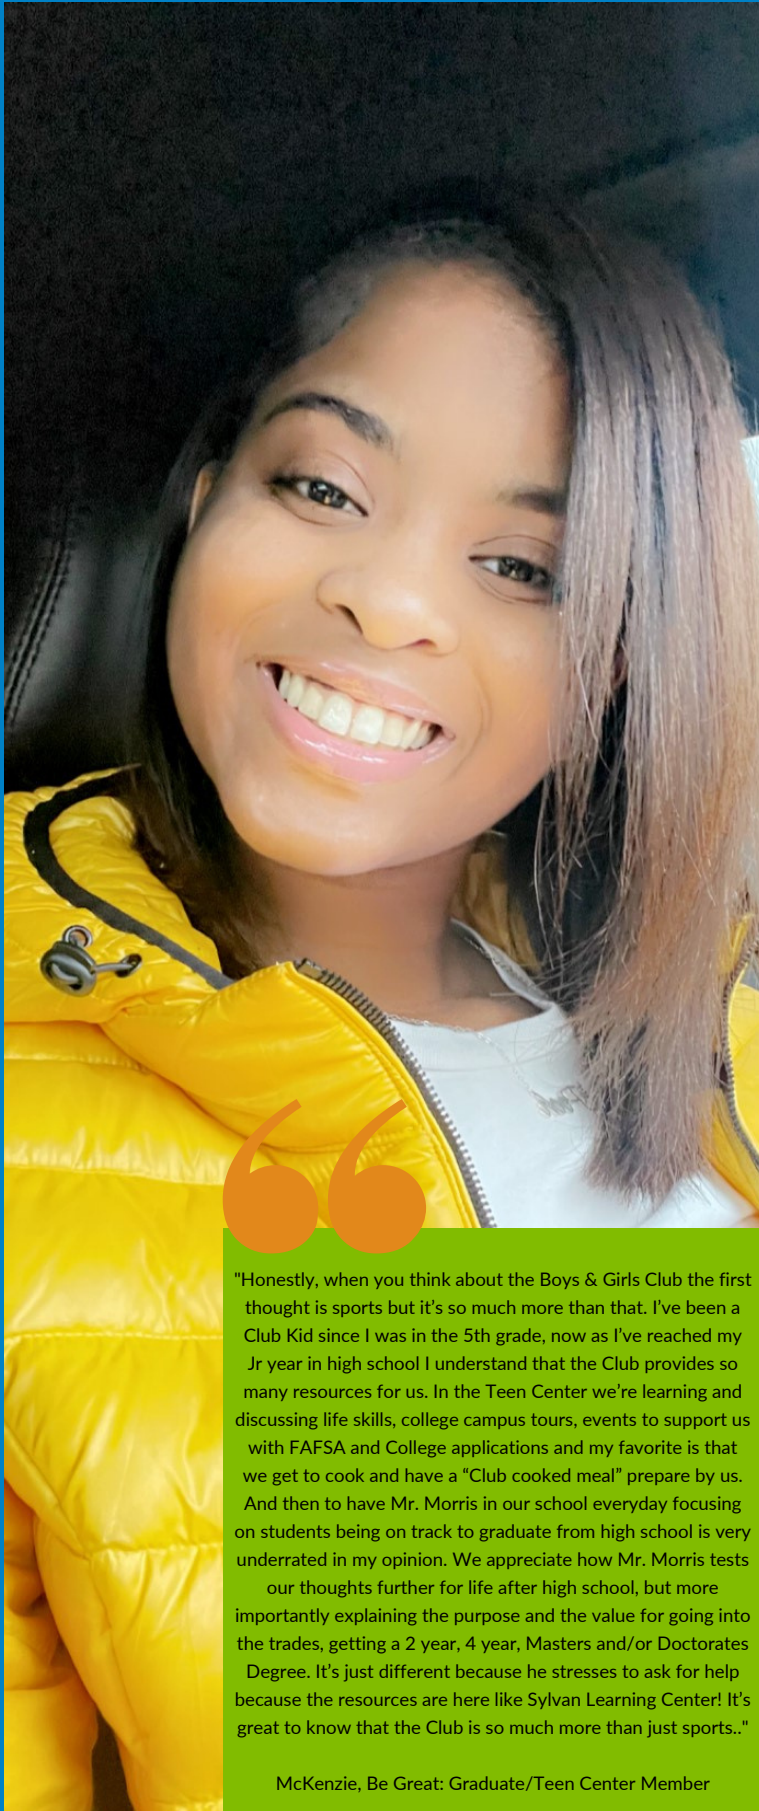

OUR MISSION

To impact the most young people possible, especially those who need us most, to realize their full potential as productive, caring, responsible citizens.

Sincerely,
Tara M Panasewicz

Our Footprint

Our Boys & Girls Club has over a 30-year history of empowering the youth, teens, and families we serve. Through programs and services that provide safety, health, dignity, and equitable opportunity, we strive to ensure our youth have the tools, skills, and resources they need to reach their full potential, regardless of their zip codes or backgrounds. We are committed to creating an environment for each member to feel safe, heard, and empowered and to know he or she has a voice. Now more than ever, we continue to do whatever it takes to be mentors and champions for youth and build our community through a lens of opportunities for all.

"Honestly, when you think about the Boys & Girls Club the first thought is sports but it's so much more than that. I've been a Club Kid since I was in the 5th grade, now as I've reached my Jr year in high school I understand that the Club provides so many resources for us. In the Teen Center we're learning and discussing life skills, college campus tours, events to support us with FAFSA and College applications and my favorite is that we get to cook and have a "Club cooked meal" prepare by us. And then to have Mr. Morris in our school everyday focusing on students being on track to graduate from high school is very underrated in my opinion. We appreciate how Mr. Morris tests our thoughts further for life after high school, but more importantly explaining the purpose and the value for going into the trades, getting a 2 year, 4 year, Masters and/or Doctorates Degree. It's just different because he stresses to ask for help because the resources are here like Sylvan Learning Center! It's great to know that the Club is so much more than just sports.."

Affordable after school programs are extremely important to the success of youth and their family. Transportation to after school programming is also very important and often a barrier for low-income youth and their families. Once youth arrive at the Club, they then have access to homework help, a nutritious dinner, games, mentorship, exercise and more. Youth of the YEAR

Erica D. was selected as The Boys & Girls Club of Kenosha's 2023 Youth of the Year because of her dedication to giving back, the leadership role she has assumed and her ability to be a role model to her peers. She strives to be the best and won't allow her struggles to hold her back. She maintains a positive attitude about life, continues to help others in need and displays her leadership abilities at the Club, in her school, and the community. As a member and Treasurer of Keystone she has volunteered countless hours working with her peers at her school. Erica is often the first one to assist staff or fellow Club members when asked.

WHAT IS A YOUTH OF THE YEAR?

The Youth of the Year is a role model, leader and advocate for the youth members served by Boys & Girls Club of Kenosha each year

Erica is an excellent example of a future impactful leader in the making whether she is at the Boys & Girls Club of Kenosha, school or in her community.
